Dear Ted,
You're correct - the 7th is no longer an option. In fact, in talking with Joy before the holiday, she confirmed that Rick only had morning availability during the week you will be on vacation (we will be covering the Richmond and INBIFO S&H projects that week).

At this point, I am planning to cover the Neuchatel S&H review in October. I will be contacting your group shortly regarding potential dates. In the event that any September dates open up on Rick's calendar, I will let you know.

Thanks,
Valerie

Subject: S&H Update

Loreen and Valerie,

I still have Sept. 7 on my calendar as the tentative date for the S&H update (project review). I would assume that this date is no longer valid. Trying to find a date in the foreseeable future will be indeed difficult. Basically, September is already shot, as are the first two weeks of October. After that, things should get a bit better. The problem is not that we need a lot of time to prepare, but that finding dates when all of us are here is quite difficult. Let me know what you want to do.

Thanks.

Ted
